

# **Scholarship Opportunities & Open Positions**

**For M.Sc. and Ph.D. students**

**in Doruk Doğu's**

**Materials for Catalysis and Fuel Cells Research Laboratory**

**at**

**Atılım University**

**Project is funded by TUBITAK 2232 “International Fellowship  
for Outstanding Researchers Program”**

We are seeking multiple MSc and PhD students to join our team. Students that are going to join our group will work in the area of high temperature electrocatalysis and solid oxide fuel cells. Particularly current project focuses on i) nitride conducting electrolyte development and ii) ammonia production electrocatalyst development.

BS degree from Materials Engineering, Chemical engineering, Chemistry or a related field is desired.

Preference will be given to candidates with experience in catalyst synthesis, material characterization methods, electrochemistry, and fuel cells but not required.

Exceptional Postdoctoral Researchers will also be considered.

For more information and application please contact Doruk Dogu ([doruk.dogu@atilim.edu.tr](mailto:doruk.dogu@atilim.edu.tr)). Please include your CV and contact information of at least two references with your application.
